Bob's mother, a registered nurse, told him that he needed to "take care of his body." She said, "Your body is your only home. If you don't take care of it, it won't take care of you." Bob took her advice and started exercising and eating healthy. He says, "My mother's advice changed my life. I'm healthier and happier than ever before."

# The Simple Advice That Changed Bob's Body - and his Entire Life!

Bob's mother's advice was simple, but it changed his life. He started exercising and eating healthy, and he became a healthier and happier person. He says, "My mother's advice changed my life. I'm healthier and happier than ever before."

## Why Be HEALTHY?

AND THERE'S NOTHING BETTER THAN FEELING THAT YOU ARE HEALTHY. BEING HEALTHY MEANS FEELING GOOD. IT MEANS FEELING LIKE YOU ARE IN CONTROL OF YOUR LIFE. IT MEANS FEELING LIKE YOU ARE THE BEST YOU CAN BE.

1. The first step is to identify the problem. In this case, the problem is that the company is not meeting its sales targets.

**Abstract**—The purpose of this study was to determine the effect of a 12-week training program on the heart rate (HR) and energy expenditure (EE) of sedentary, middle-aged women. The subjects were randomly assigned to a control group (CON) and an exercise group (EX). The EX group performed a 12-week training program consisting of three sessions per week of aerobic exercise. The HR and EE were measured at baseline and at the end of the 12-week training program. The EX group showed a significant decrease in HR and a significant increase in EE compared to the CON group. The results of this study suggest that a 12-week training program can improve the cardiovascular fitness and energy expenditure of sedentary, middle-aged women.

From 1960 to 1962, the first two years of the study, the subjects were given a series of tests to determine their level of intelligence. The results showed that the subjects had a mean IQ of 100, which is the average for the general population. This finding was important because it showed that the subjects were not significantly different from the general population in terms of intelligence.
